

NCR GROUP LINE OF BUSINESS

20TH

QUALITY MANAGEMENT SYSTEM-ISO 9001:2015

We will only deliver what is the best for our customers.

Company Profile

N.C.R engineering & Trading Co.,Ltd. Has established and operated business since 4 September 1998. The Company has committed to development work to strive for excellence in performance and service distribution for maximum customer satisfaction.

Ensures that NCR GROUP has won the trust of the Thai population for more than 20 year, NCR GROUP has developed and more products to cover the customer's production line and convenience to the end user as much as possible. Therefore, the company can offer a product that has the ability and the best quality, with prices to suit the customer.

Not only that provide recognized standards of quality, accuracy and appropriate pricing company, a continuity of service and Support System and Customer Service that reach the international standard with the use of modern technology and expertise engineers to ensure customer's convenience and satisfaction.

with strict standards and results. The NCR Group has established and operated business since 4 September 1998. The Company has committed to development work to strive for excellence in performance and service distribution for maximum customer satisfaction. PRICER

Electronic Shelf Labels

Pricer's electronic shelf-labeling solution helps you save time with automatic price updates, store operations and task management. It's more cost-efficient than paper and improves your customers' experience with accurate, reliable pricing.

Investing in a system might seem daunting. There are plenty of organizations across the world loudly proclaiming their outstanding product suite. We would like to take you on a journey to demonstrate the best practices, stress tests, and other methods available to test, trial and evaluate electronic shelf labels. This will guide you in making the right decision and selecting the solution most suitable for your needs.

SmartPOSTER

- Pricer player plugs directly into any display (TV)
- Technically the largest ESL in the store
- Create digital signage with price integrity
- Perfect solution to display promotions, fruit & veg, delicatessen, fish or dairy products, etc.

Vegetable Wrapper

WM-UNI-VF

Non-Tray / Tray Wrapping

Wrapping speeds up to 15 packs per minutes.

PAW-550

Features

- Wrapping the variety of vegetables
The adjustment of center water portion length enables this machine to wrap bulky vegetables. In addition, standard guide plate prevents leaf from getting caught in center water portion.
- Flexible wrapping for wide vegetables
It can deal with various kinds of vegetables because this film width is 600mm. (Motor is available (Option))
Making it possible to print producer's name and numbers.
- Detection of empty bags by sensor
Sens detector sensor (included as standard type) enables the machine to make few waste empty bags.

Specifications

Dimensions	L1700 W1700 H1420 (mm)
Wrapping speed	10-20(packs/min)
Max. film speed	100(m/min)
Max. film width	600 (mm)
Max. film dia.	200 (mm)
Max. item size (H)	110 (mm)
Max. item width (W)	200 (mm)
Finest cut length	100-600 (mm)
Power consumption	Three phase 2.4
Weight	100 (kg)

PAW-6000B

Features

- Different by computer control
High-speed wrapping for bulky and long vegetables. As having 100 kinds of various vegetables as item Master is available, setting up important data easily and enables operators to switch each item data smoothly.
- It includes stainless steel conveyor with side belt as standard type in its feed portion.
All you have to do is putting vegetables on it conveyor with side belts. (Once items are put on it, they are provided to the machine and the empty bags are discharged)
- Printer is available (Option)
Making it possible to print producer's name and numbers.
- HSAH (Option)
HSAH is wrapping system which calculates optimal bag length depending on item length, and make end-cut bag automatically.

Specifications

Dimensions	L 4200 W 2700 H 1817 (mm)
Wrapping speed	20-30(packs/min)
Max. film speed	100(m/min)
Max. film width	200 (mm)
Max. film dia.	200 (mm)
Max. item size (H)	120 (mm)

Normal Pillow Wrapping Machine

Compact size, but Max. 120 pcs/min is Available

Features

- Compact body
This is the most compact size in Normal Pillow Wrapping Machine with same capacity. In addition, it can wrap max. 120 pillows/min.
- Easy Maintenance
Easy to understand and operate touch panel for every operation such as cutting position adjustment.
- Can select both of high speed and intermittent operation
Max. of higher conveyor for high speed and for both conveyor for intermittent operation is available.
- Hot's Option
The 3-roller Cold-through System warms forms position inside the bag. When the sensor detects temperature, it will stop and warm temporarily and discharge instantaneous form to one bag/bag without any flow.

Specifications

Dimensions	1,200 (W) x 660 (D) x 1,100 (H) (mm)
Wrapping speed	60 / 120 (pieces/min)
Wrapping speed (P, both CV)	60 (pieces/min)
Max. Bag speed	200 (mm/s)
Max. Bag width	600 (mm)
Max. Bag dia.	300 (mm)
Max. Neck size (H)	60 (mm)
Max. Neck width (W)	100 (mm)
Min. cut length	60 (mm) (min)
Power consumption	Three phase 4.0
Weight	300 (kg)

Proto-C700B

High performance · Compact size · Easy operation

Features

- Hot's Series 1
The Series 1 system are equipped for the first time in this class, which enables the machine to improve fine adjustment function between each drive and operability. In addition, this provides better maintainability and reduce noise and vibration during high speed operation, which enables operation to operate the machine comfortably.
- Throughgoing Throughing
The size of the machine became smaller than previous model by simplifying each part. Width of the machine is reduced to less than 600mm with consideration for installation space and delivery route.
- Easy maintenance and cleaning
Detachable and washable hot salt conveyor are set as standard, which will keep good condition.
- Excellent operability
Touch screen color-based graphical display shows for easy setting and operation on the start size touch panel. Can change forms with these steps on the touch panel.

Specifications

Dimensions	1,200 (W) x 600 (D) x 1,000 (H) (mm)
Wrapping speed	60 (pieces/min)
Wrapping speed (P, both CV)	60 (pieces/min)
Max. Bag speed	200 (mm/s)
Max. Bag width	600 (mm)
Max. Bag dia.	300 (mm)
Max. Neck size (H)	60 (mm)
Max. Neck width (W)	100 (mm)
Min. cut length	100 (mm) (min)
Power consumption	Three phase 4.0
Weight	170 (kg)
Net consumption	0.5 (kWh) (W) (1 year 24h)

Proto-AH80

Sophisticated machine with High Speed and Excellent Hygiene

Features

- High Speed
Compact main body and small the space, but it can wrap max. 80 pcs/min.
- Easy Maintenance
Maintenance of the end roller was not easy but improved. Detaching the drive pulley allows good care for sealing surface and also easy maintenance and cleaning.
Pressure roller is used in the body with good condition.
- Hot salt conveyor as standard
Detachable and washable hot salt conveyor are set as standard, which will keep good condition.

Specifications

Dimensions	1,200 (W) x 660 (D) x 1,100 (H) (mm)
Wrapping speed	60 (pieces/min)
Wrapping speed (both CV)	60 (pieces/min)
Max. Bag speed	200 (mm/s)
Max. Bag width	600 (mm)
Max. Bag dia.	300 (mm)
Max. Neck size (H)	60 (mm)
Max. Neck width (W)	100 (mm)
Min. cut length	100 (mm) (min)
Power consumption	Three phase 4.0
Weight	1,400 (kg)
Net consumption	0.5 (kWh) (W) (1 year 24h)

Reverse Pillow Wrapping Machine

Standard for small wrapping machine

PBF-300MG

Features

- Small, but reliable machine
How small this is! This is the first compact size machine controlled by the computer.
- Easy operation with easy-fix
Simple operation panel enables even beginners to operate the machine easily.

Specifications

Dimensions	L: 1,100 W: 500 H: 1,200 (mm)
Wrapping speed	30-50pcy/min
Max. film speed	50m/min
Max. film width	600 (mm)
Max. film dia.	300 (mm)
Max. film size (H)	40 (mm)
Max. film width (W)	100 (mm)
Film cut length	50-200 (mm)
Power consumption	Three phase 1.8 / Single phase 100W 1.8
Weight	250 (kg)

Compact Box-motion wrapping machine

PROTO-Fseries (F30, F40, F50)

Features

- Easy cleaning and operation
Corrosion resistant stainless steel is used in the body and the case of electric parts. Maintenance of the end sealer can be performed easily by loosening the end heat conveyor, which keeps them clean at all times.
- Newly designed to prevent film foreign matter
The design was redesigned so that film is placed in the center of the machine to prevent film foreign matter in the film.
- More compact size!
The machine could get to be smaller than before (by 50mm) so as to improve operational efficiency even in a small space.
- Features of an heat conveyor system
The heat conveyor is set as standard, but you can choose from several options of detachable and portable type, for example when water conveyor is the best only if you need it from sanitary.

Specifications

Dimensions	L: 1,200 W: 700 H: 1,400 (mm)
Wrapping speed	10-20pcy/min
Max. film speed	20m/min
Max. film width	600 (mm)
Max. film dia.	300 (mm)
Max. film size (H)	40 (mm)
Max. film width (W)	100 (mm)
Film cut length	50-200 (mm)
Power consumption	Three phase 1.8
Weight	300 (kg)
Air consumption	0.5 (MPa) 40 L/min (max)

PROTO-R600E

Advanced machine with improved functions and sanitary

Features

- High Speed
Compact main body and easy film space, but it can wrap max. 80 pcy/min
- Easy Maintenance
Maintenance of the end sealer can be easy but improved. Detaching the drive portion allowed good view for sealing surfaces and also easy maintenance and cleaning. Stainless steel is used in the body with good sanitation.
- Feature distinct of Reverse Pillow Wrapping machine
The design was improved to set the film chamber in the center of the machine to prevent film foreign matter in the film.
- Flat belt conveyor as standard
Detachable and available flat belt conveyors are set as standard which will keep good sanitation.

Specifications

Dimensions	L: 1,200 W: 1,000 H: 1,500 (mm)
Wrapping speed	10-20pcy/min
Wrapping speed (H: 40mm L: 70)	80pcy/min
Max. film speed	20m/min
Max. film width	600 (mm)
Max. film dia.	300 (mm)
Max. film size (H)	40 (mm)
Max. film width (W)	100 (mm)
Film cut length	50-200 (mm)
Power consumption	Three phase 1.8
Weight	1,200 (kg)
Air consumption	0.5 (MPa) 40 L/min (max)

Built-in weighing unit

DFB Series

Suitable to install in production systems where weighing is required

Various models are available

Weighing units with capacities from 60g to 6kg are available. This line-up makes it possible to meet a variety of customer needs of making weighing systems.

Space-saving design of the weighing units

The weighing unit is designed to be arranged at a minimum pitch of 50mm (DFB-60), ideal for multiple-weighing unit configuration. The indicator, small enough to fit the palm of your hand, can be mounted separately from the weighing unit.

Ease of connection to PLC

DFB series is equipped with RS-232C or BCD parallel output (optional).

This makes it easier to connect DFB series to a controller in a system into which DFB series is to be built.

Length	0.2 to 40.0 cm
Width	0.2 to 40.0 cm
Height	0.2 to 60.0 cm
Weight capacity	0.002 to 20.00 kg

CURSCAN 110

Measurement range	
Length	0.2 to 90.0 cm
Width	0.2 to 60.0 cm
Height	0.2 to 60.0 cm
Weight capacity	0.002 to 20.00 kg

CURSCAN 150

Measurement range	
Length	0.0 to 120.0 cm
Width	0.0 to 100.0 cm
Height	0.0 to 100.0 cm
Weight capacity	0.02 to 20.00 kg

CURSCAN 175

Measurement range	
Length	10.0 to 120.0 cm
Width	10.0 to 60.0 cm
Height	5.0 to 80.0 cm
Weight capacity	0.04 to 50.00 kg

CURSCAN 100-175

Measurement range	
Length	10.0 to 150.0 cm
Width	10.0 to 90.0 cm or 10.0 to 120.0 cm
Height	6.0 to 80.0 cm
Weight capacity	0.00 to 50.00 kg

CURSCAN 100-ALL

Measurement range	
Length	1.2 to 83.0 cm
Width	1.2 to 25.0 cm
Height	1.2 to 60.0 cm

Logistic Power Pallet / Powercart

THE WORLD LEADER IN COMPACT MATERIAL HANDLING SOLUTIONS

A retrofittable drive unit designed to motorize a manual pallet jack

The POWERCART H-Series is a compact, highly maneuverable industrial cart mover. It combines the hydraulic lift system of a manual jack with a unique, quick-connect hitching system and the POWERPALLET 2000 drive system ... together creating a fast, powerful, easy-to-use and highly maneuverable cart mover. Connecting via the mating cart hitch (attached to each cart) it allows a single operator to effortlessly move wheeled loads weighing up to 3,500lbs (1,600kg).

POWERCART H-Series	Max. Speed*		Load Moving Capacity		Drive Motor	NiMH Battery Pack		Recharge Time
	M/Min	MPH	Kg	Pounds		Amp Hour	Voltage	
	100	3.7	1,600	3,500	Brushless DC	5Ah	45.0V	2 hours (from 80% depletion)

COLLISION SENTRY

RACK GUARD

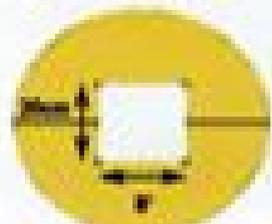

- Easy to use
- Easy to install
- Cheaper than repair or rack replacement
- Always on duty
- Tougher than your tow motor

4"/10 cm square

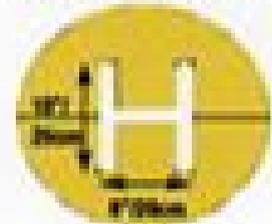

6"/15 cm square

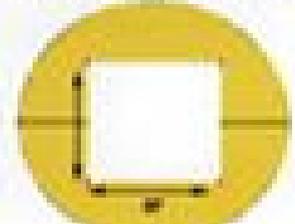

8"/20 cm square

9"/22 cm round

8"x10" H

20"/51 cm square

Sticker

- sticker white : sticker for general use
- sticker color : sticker for general use / sticker for general use
- sticker for general use : sticker for general use
